

SNAP / SUPRA NETWORK ACTIVATE PROGRAM

Get the early mover advantage with free access to Supra's oracle and dVRF services for 6 months, followed by an opportunity to stake tokens to continue the free services.

IN A NUTSHELL

The Supra Network Activate Program (SNAP) is an incentive program that offers zero-cost access to our novel data feeds and VRFs, along with technical support and guidance to early integrators. Its goal is to support Web3 scaling and growth by buffering costs which typically inhibit a company's success.

ANY PROJECT CAN JOIN SNAP

The Supra Network Activate Program (SNAP) is designed to reward promising blockchain projects and companies who integrate with our oracles or dVRF.

ACROSS ALL 47+ MAINNETS

HOW IT WORKS

- Get started: [Submit the form](#) on the SNAP page to apply for benefits.
- First 6 months: Get free oracle and dVRF services for 6 months on any mainnet of your choice.
- After 6 months: Stake \$SUPRA to receive service credits.
- Keep going or unstake: Unstake at any time to receive all of your tokens back.

FINANCIAL BENEFITS

No strings attached free access to oracle and dVRF services for the first 6 months.

After 6 months, stake approved tokens to continue with free services. Unstake anytime.

KEEP IN MIND

- Supra staking contracts deduct base fees from your staked \$SUPRA
- Fees are pegged to USDC amounts during staking for predictability.
- SNAP is a limited time program, applications may close soon.
